WORK EXPERIENCE

Learning and Development Specialist

Sep. 2020 – Present

Avanade | Internal | Remote (Chicago, IL)

- Conducted 4-week onboarding program, acting as instructor, mentor, mock client, and technical support for 19 new hires.
- Engineered static website that converts a JSON object to a TypeScript model and basic Angular form, minimizing repetitive tasks for future new-hires.

Front-End Developer

Mar. 2020 – Sep. 2020

Avanade | Client – Large Consultancy | Remote (Chicago, IL)

- Contributed to application migration, updating a deal pricing tool from AngularJS (Angular 1) to Angular 9.
- Facilitated Agile Scrum ceremonies when necessary, allowing team to continue delivering work while short-handed.

Front-End Developer

May 2018 – Feb. 2020

Avanade | Client – Large Consultancy | Remote (Chicago, IL)

- Designed and implemented AWS architecture for serverless web application.
- Developed impactful, reusable front-end components and service layer for serverless web application written in Vue and hosted in AWS.
- Organized the team task backlog in Azure DevOps and administered Agile Scrum ceremonies, enabling a clean, fast development cycle.
- Orchestrated web accessibility implementation for multiple sites, reducing over 100 existing defects to 0 and maintaining a high standard for accessible websites.
- Spearheaded unit testing and functional testing, mentoring teammates in delivery and increasing code coverage of high impact feature areas to 100%.

Business Analyst

Aug. 2017 – Apr. 2018

Avanade | Client – Small Finance | Chicago, IL

- Supported over 350 employees, corresponding between my client and our third party software vendor to properly resolve user requests.
- Generated SQL create queries and scripts to close over 200 support tickets, enhancing the custom workflow software solution to meet client needs.
